Academic/Vocational Planning

A registration meeting will be held with each student upon initial enrollment. Parents are encouraged to participate in this meeting. Graduation status will be reviewed. A high school and beyond plan will be developed with the student and counselor during the school year.

Course Grades

Students earn credit based on completion of courses of study. Each course is developed around what a student should be able to know and do within a subject. Students must demonstrate their knowledge and skills to pass each course. Grades are given at the end of each quarter. Students who are not passing classes will meet with the counselor to discuss academic options for success.

Being Prepared for Success

SSHS Programs are Programs of Choice. Students choose to attend SSHS for many reasons coming from many different backgrounds. Our programs are created to meet their needs and preferred learning setting. It is each student's responsibility to come ready to make the best of each day and move forward in their education. All students and parents must sign an enrollment agreement indicating agreement and acceptance of the student's responsibility to be prepared to learn each school day.

Students who do not make adequate progress will be met with by the administrator and a plan for academic success will be created. This may include moving to a different program.

Procedures and Practices for Success

Core Program: Parents are key to each student's success. Core grades are posted on the website. Parents can view a student's progress at any time. Passwords and instructions for access are given upon enrollment. Please contact us if you haven't received it. For an appointment to meet with a student's teacher, counselor or the principal please call 855-3550. Parents will be contacted for a conference if a student is falling behind academically or in attendance. Please contact us at any time if you have any questions about your student's progress.

Home-centered Learning Program: Parents will receive a letter and a phone call if their student is behind on hours or academic requirements. If students do not make-up their missing hours or work, a conference will be called to enroll the student in a new program. Each 5 hours a student is behind counts as a day's absence. Students who are not making satisfactory progress 2 weeks in a row will be transferred into another program.

Attendance - Schedule:

Core academic classes run from 7:45 a.m.-2:15 p.m. Mon.-Friday. The school campus is open from 7:00 a.m. until 3:30 pm. Core students may use the Sedro-Woolley School District bus system. If they are on SSHS or the SWHS they need to be enrolled in classes during the time they are there. Students on a shortened day schedule must provide their own transportation to or from school as needed. **Students are expected to be on time and in school. Excessive tardies or absences will result in a loss of classes.**

Attendance - Sign-in / Sign-out:

The sign-in sheet on the reception desk records attendance in school. All students must sign-in when they arrive on campus and must sign-out when they leave campus. Once a student has signed-in, they may not leave campus. Once a student signs out they must leave campus.

Attendance - Absence from School:

Regular and on-time attendance is very important to each student's success. The parent/guardian must call or send a note within 24 hours to notify the main office if your child is excused for an absence from school. The school office will call the guardian phone number when a student is absent unless the parent has pre-arranged the absence. Students may be excused from school for illness, a death in the family, legal/medical appointments, or other family emergencies. Students who have frequent or long-term absences must meet with the principal or counselor to make a plan so that they don't fall behind.

Students who have more than five (5) days unexcused absences in one month or more than ten (10) days unexcused absences during the school year must be referred to the truancy board or the courts under the BECCA law. A day of unexcused absence is counted when a student is absent without an excuse for more than a half-day.

Cell Phones:

Are not allowed to be used during class. Phones will be taken and returned at the end of school. This has become a huge problem.

Textbooks:

Basic textbooks and supplementary materials are provided to all students free of charge. Each student is responsible for maintaining textbooks checked out to them and returning the book in satisfactory condition. Students will be charged a fee or replacement charge for books not returned or damaged.

Telephone Use:

School phones are for school business and private use is limited to communication directly related to school activities. **The use of cell phones or allowing audible cell phone rings during class is not allowed.**

School Lunches & Breakfasts:

School lunch and breakfast are served daily. All SSSH students will receive free breakfast and lunch this year.

Free and Reduced Priced Meal applications still must be filled out yearly. You have a number of options for obtaining and completing a meal benefit application from the Sedro-Woolley School District website:

Free and Reduced Priced Meal application forms may be printed from the SWSD website. Please submit that form by returning it to your child's school. You only have to complete one form if you have children in multiple schools.

You can complete an "on-line" application for meal benefits from the SWSD website.

The Main Campus:

All students must sign-in upon arrival and must sign-out when they leave campus. It is a closed campus. Students are not allowed to drive off campus during lunch. Students are not allowed to return to campus once they leave unless arrangements have been made with administration.

Student Parking:

Students who drive to school must park on campus in the designated parking area. Students may not be in their car during the school day or during lunch. Vehicles parked on campus may be subject to search by school personnel. Drugs, alcohol, weapons and other not allowed items on school premises are not allowed in vehicles parked on campus.

Traffic Regulations:

Students must operate vehicles in a safe manner while on or adjacent to school property. All regulatory signs and posted traffic rules must be followed. Students who violate traffic regulations will not be allowed to drive their vehicle to school. Cars must stay on campus until you leave. Once you leave you are not allowed back until the next day unless arrangements have been made with administration.

We believe substance use of any kind, including, e-digs, vapes and other tobacco-products, gets in the way of our students' abilities to be healthy and resilient. We care about our students' health and wellbeing, and we expect all SSHS Students to adhere to the substance abuse policies outlined below. We also know that some students may benefit from additional support. If you or someone you know would like help for any kind of substance use, including vaping, or mental health concerns, please connect with your School Counselor or Student Assistance Professional.

Tobacco:

Per state and federal law and school board policy, tobacco products are not allowed to be used on the campus. This includes smokeless tobacco, vapes and e-cigarettes. Use during the school class day will result in steps 1,2,3 of substance abuse policy. Continued use will result in a conference and possible change of program. Vapes, cigarettes, tobacco will be confiscated and not returned.

Controlled Substance Abuse:

It is in direct violation of the law to possess use or to be under the influence of alcohol or any other controlled or illegal substance. It is also against the law to purchase, sell or share with others any controlled or illegal substance. Any violation of these laws may include the calling of law officials, and following of the steps in our substance abuse policy. Parents will be contacted and students will be removed from school until they are able to return without being under the influence. Continued use will require a conference and possible change of program.

Search and Seizure and Video Surveillance

To maintain order and discipline in the schools and to protect the safety and welfare of students and school personnel, school authorities may search a student under the circumstances outlined below and may seize any illegal, unauthorized or contraband materials discovered in the search. A student's failure to permit searches and seizures as provided in this policy will be considered grounds for disciplinary action.

Personal Searches

A student's person and/or personal effects (e.g., purse, book bag, etc.) may be searched whenever a school authority has reasonable suspicion to believe the individual student is in possession of illegal or unauthorized materials (e.g., vapes, drugs, stolen items) or has violated or is violating a law of school rule. If a pat-down search of a student's person is conducted, it will be conducted in private by a school official of the same sex with an adult witness present, when feasible.

Video Surveillance on School District Grounds or property (BP 4205)

The District is committed to maintaining and promoting a safe school environment for all students, staff members, and visitors on its campuses. The Board recognizes that the use of video surveillance may help ensure the safety and security of students, staff members, and visitors; protect District property from loss or destruction; prevent and deter criminal activity and conduct violations; and assist with the enforcement of District policies, procedures and rules. As a result, the Board authorizes the use of video/electronic surveillance systems on school grounds or property for these purposes.

Dress Code

Student dress shall only be regulated when, in the judgment of school administrators, there is a reasonable expectation that:

- a. A health or safety hazard shall be presented by the students' dress or appearance including possible membership in a gang or hate groups, offensive messages to any student or staff.
- b. Damage to school property shall result from the student's dress; or
- c. A material and substantial disruption to the educational process will result from the student's dress or appearance.

For the purpose of this policy, a material and substantial disruption of the education process may be found to exist when a student's conduct is inconsistent with any part of the educational mission of the school district. Prohibited conduct includes the use of lewd, sexual, drug, tobacco or alcohol-related messages, and/or gang related apparel.

We ask that parents support this process. Students violating the dress code will be required to obtain a change of clothes from home or wear a shirt provided by the school.

Prohibition of Harassment, Intimidation and Bullying

The district is committed to a safe and civil educational environment for all students, employees, parents/legal guardians, volunteers and patrons, that is free from harassment, intimidation or bullying. "Harassment, intimidation or bullying" means any intentionally written message or image including but not limited to one shown to be motivated by race, color, religion, ancestry, national origin, gender, sexual orientation including gender expression or identity, mental or physical disability or other distinguishing characteristics, when an act:

- Physically harms a student or damages the student's property
- Has the effect of substantially interfering with a student's education
- Is so severe, persistent or pervasive that it creates an intimidating or threatening educational environment
- Has the effect of substantially disrupting the orderly operation of the school.

Nothing in this section requires the affected student to actually possess a characteristic that is a basis for the harassment, intimidation or bullying. "Other distinguishing characteristics" can include but are not limited to: physical appearance, clothing or other apparel, socioeconomic status and weight. "Intentional acts" refers to the individual's choice to engage in the act rather than the ultimate impact of the action(s).

Behaviors/Expressions

Harassment, intimidation or bullying can take many forms including, but not limited to, slurs, rumors, jokes, innuendos, demeaning comments, drawings, cartoons, pranks, gestures, physical attacks, threats or other written, oral, physical or electronically transmitted messages or images. This policy is not intended to prohibit expression of religious, philosophical or political views, provided that the expression does not substantially disrupt the educational environment. Many behaviors that do not rise to the level of harassment, intimidation or bullying may still be prohibited by other district policies or building, classroom or program rules.

Prevention

The district will provide students with strategies aimed at preventing harassment, intimidation and bullying. In its efforts to train students, the district will seek partnerships with families, law enforcement and other community agencies.

Interventions

Interventions are designed to remediate the impact on the targeted student(s) and others impacted by the violation, to change the behavior of the perpetrator, and to restore a positive school climate. The district will consider the frequency of incidents, developmental age of the student and severity of the conduct in determining intervention strategies. Interventions will range from counseling, correcting behavior and discipline, to law enforcement referrals.

Filing an Incident Reporting Form

Any student who believes he or she has been the target of unresolved, severe, or persistent harassment, intimidation or bullying, or any other person in the school community who observes or receives notice that a student has or may have been the target of unresolved, severe, or persistent harassment, intimidation or bullying may report incidents verbally or in writing to any staff member.

Retaliation/False Allegations

Retaliation is prohibited and will result in appropriate discipline. It is a violation of this policy to threaten or harm someone for reporting harassment, intimidation, or bullying. It is also a violation of district policy to knowingly report false allegations of harassment, intimidation, and bullying. Students or employees will not be disciplined for making a report in good faith. However, persons found to knowingly report or corroborate false allegations will be subject to appropriate discipline.

More information regarding this policy can be found on the district website: www.swsd101.org

Normal Action Steps:

Step #1: Warning/Resolution of Problem: When possible a warning will be given by a staff person so that the problem may be able to be resolved with the cooperation of the student.

Step #2: In-School Measures: Minor violations and first-time offences may be handled by direct intervention by school staff. A teacher, school counselor, paraprofessional or principal may be able to discuss the incident with the students involved and resolve conflicts or help students correct their behavior. Time out of class or actions to correct or apologize for behaviors may allow a student to continue in school for the day. Parents will be notified by phone or mail if a student is referred to the office for disciplinary reasons. Students may be assigned detention from 7:30-7:45 or 11:45-12:00 or 2:15-2:30. Parents will be notified if detention is assigned.

Step #3: Sent Home for the Day: If the problem cannot be resolved, the student will be sent home for the remainder of the day. The student may make a phone call to notify parents or get a ride but then must sign out and leave campus immediately. The student may not return to campus for the remainder of the day. Parents will be notified and students may be required to participate in a meeting to review their plan of success.

Step #4: Short Term Suspension: For repeated or severe violations a student may be suspended from school for 1-5 days. A student shall have a conference with the school principal where specific charges, evidence and explanation will be given. The student shall have the opportunity also to present his/her explanation at the conference.

Step #5: Long-Term Suspension/Expulsion: For specific severe actions or on-going patterns of behavior a student may be long-term suspended for more than 5 days and up to the remainder of the school year or be expelled from school. As required by Board Policy 3323 a hearing will be made available to the affected student and parent(s).

Step #6: Legal Action: In cases where students engage in illegal actions, parents will be contacted and legal action will be taken. This may include notifying police, filing charges against the student or filing petitions directly to the court. Students who violate any zero-tolerance policies will be emergency expelled until an investigation is completed and any disciplinary actions taken. If a student is truant, (under the age of 18 without a GED), a Truancy Petition will be filed with the court. Truant, for our program, is defined as not meeting the minimum attendance hours to remain enrolled.

Student Rights and Responsibilities

Each student served by the school district has the following rights:

An equal educational opportunity with freedom from discrimination because of national origin, race, religion, economic status, sex, pregnancy, marital status, previous arrest, previous incarceration, or a physical, mental or sensory handicap

Freedom of speech and press, peaceful assembly (during non-class time), and redress of grievances subject to reasonable limitations upon time, place and manner of exercising such rights

Freedom from unreasonable searches or seizures (see also “search & seizure” in this handbook)

Freedom from unlawful interference in his/her pursuit of an education

Due Process

Parents and students have the right to appeal disciplinary decisions. The discipline action will continue during the appeal procedure unless the principal or his/her designee elects to postpone such action. The appeal process must take place in the following order:

1. Building Level – All appeals initially take place at the high school with the building principal or his/her designee.
2. District Level - If the differences are not resolved at the building level, then parents and students have the right to present their appeal orally or in writing to the assistant superintendent upon two school business days’ prior notice if short term suspension of 10 days or less and three school business days’ prior notice if long term suspension of 11 days or more.
3. Board of Directors - If the differences are not resolved at the district level, then upon two school business days’ prior notice, parents have the right to appeal to the Board of Directors and these procedures are provided for parents to do so. In general, the law provides for:
 1. A written notice relating to an opportunity for a hearing will be delivered in person or by certified mail (within 24 hours in the case of emergency expulsion). The notice will:
 - a. Be in the predominant language of the family
 - b. State the alleged misconduct and the rules violated
 - c. State the corrective action proposed
 - d. State the right of the student to a hearing and the time limit within which parents must reply
 2. A request for a hearing will be accepted in writing (or orally in cases of physical handicap or language difference) within three school business days (ten days in cases of emergency expulsion). If the request is not received within three days (ten days - emergency expulsion), the student waives his or her right to a hearing and the corrective action will be imposed.
 3. If a request is received, the hearing will be scheduled as soon as possible and no later than three (3) school business days.
 4. A written decision stating the hearing officer’s conclusions and the form of corrective action to be imposed will be provided to the parents and student. (A decision will be given within one (1) school business day in cases of emergency expulsion).
 5. Appeals may be made to the Board of Directors within three (3) school business days after the date of the hearing decision. The Board will schedule and hold an informal conference to review the matter.

Video Surveillance on School District Grounds

The Board recognizes that the use of video surveillance may help ensure the safety and security of students, staff members, and visitors; protect District property from loss or destruction; prevent and deter criminal activity and conduct violations; and assist with the enforcement of District policies, procedures, and rules. As a result, the Board authorizes the use of video/electronic surveillance systems on school grounds or property for these purposes. Board Procedure 4205P includes information on the following: 1. Camera Location, Operation and Control; 2. Use of Surveillance Video Footage; 3. Custody, Control, Retention and Disposal of Video Surveillance Footage; 4. Student Records and/or Personnel Records; and 5. Access to, and Inspection and/or Release of Video Surveillance Footage.
