

How to Sign into Your Child's Sedro-Woolley School Google Account

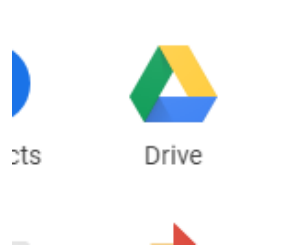

1. Open the Google browser and click on Sign In:

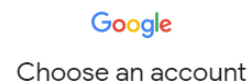

2. If no Sign In button is visible, click on the "waffle".

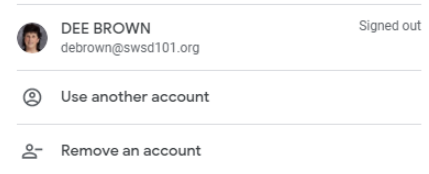

3. Then click on Google Drive:

4. A Choose Your Account window will open if other family members use Google accounts:

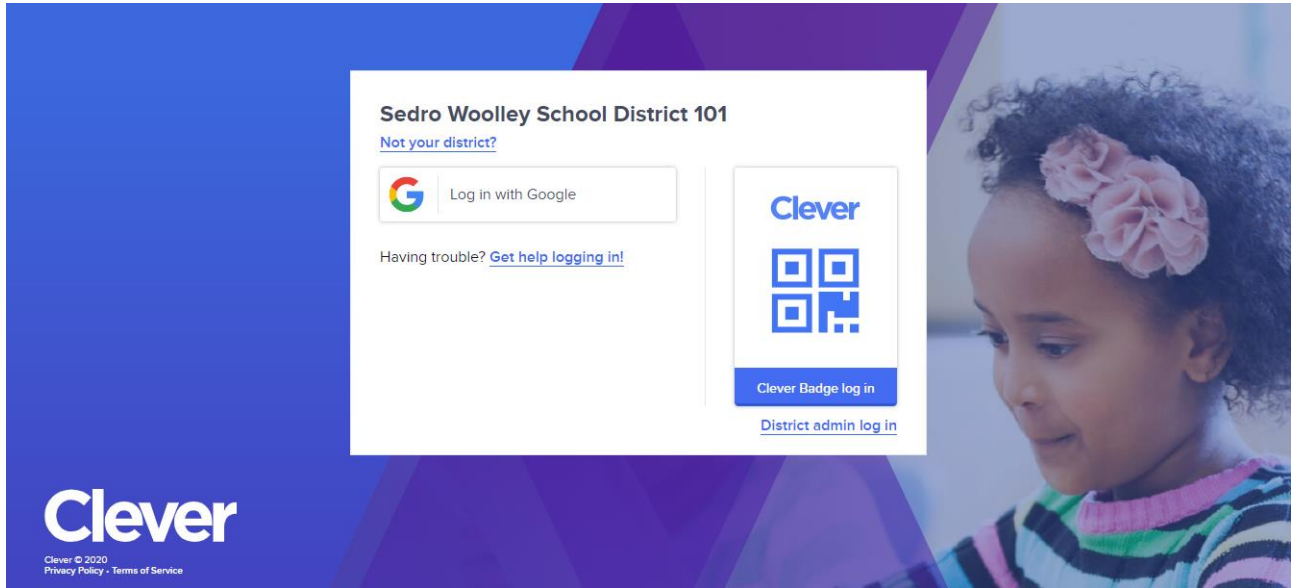

5. If you see your child's @swsd101.org account, click on it.

6. If not, click on Use Another Account, and type in their username. Their username is comprised of the first 5 letters of their last name (or less if the name is shorter; no hyphens or apostrophes) and the first 3 letters from their first name, and 3 digits (usually 000). The domain is @swsd101.org. **(Children aren't used to adding the domain as school Chromebooks have it auto-filled.)**
7. Enter your child's password: sw##### (the numbers are their 6-digit birthday).
8. If the username doesn't work, the digits are likely not 000. Please email your child's teacher or me (debrown@swsd101.org for Evg only, please). We can look up their information. (The number depends upon how many other people have the same letter combination.)
9. Be sure to log out of any school accounts prior to doing personal online business.

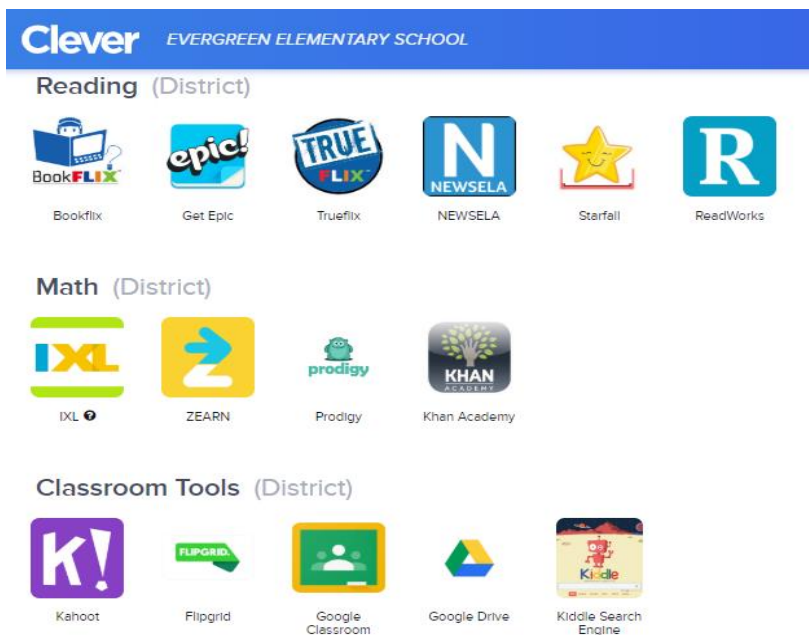

After signing into your student’s account, you will have access to their Clever landing page (commonly used web activities).

Type clever.com into the address bar, hit Enter, and click Log in as a student in the top right-hand corner. **(Bookmark this page.)** You should now see the following:

(Kindergarten and 1st graders are used to seeing this page when they open their Chromebooks. They won’t recognize any of the previous steps, and since you’ve already signed in with their Google account, there’s no need to use a QR badge.)

Now click on the **Log in with Google** button. You will see links to many of the websites used by SWSD teachers, and a link to your child’s teacher’s Clever page, if they’ve set one up:

Most sites will be accessible simply by using the site’s Sign in with Google button – so long as you are on your child’s account. **IXL’s and Typing Club’s password are “sedro”.**

These are **suggested activities**, not required tasks during the 6-week hiatus.
