

COVID-19 Screening Flowchart

Class A Symptoms

- Fever (defined as subjective or 100.4F or higher)
- Cough - Chills
- Loss of sense of taste and/or smell
- Shortness of breath or difficulty breathing

Class B Symptoms

- Fatigue
- Headache
- Congested or runny nose
- Sore throat
- Nausea or vomiting
- Diarrhea (defined as 2 or more loose stools in 24 hours)
- Muscle pain or body aches

Close Contact means being near a person with COVID-19: within 6 feet, cumulative total of about 15 minutes or longer over a 24 hour period, or a single intense exposure (e.g., sharing water bottle, kissing, being in the “blast zone” of an unprotected sneeze), up to 2 days before that person started showing symptoms
 *A negative test does NOT excuse a close contact from 14 day quarantine.
