

# Help us **discover** the need for child care

We are very pleased to announce that the Boys & Girls Clubs of Skagit County was awarded a grant through the Department of Commerce and the Seattle Foundation to survey need for early learning childcare in Sedro-Woolley, and look into the viability of current & future facility options. Over the next few months we will be surveying parents, businesses, and the wider Sedro-Woolley community about the felt need for increased early learning childcare needs, and the availability of resources. We are proud to partner with many local groups on the Sedro-Woolley Child Care Taskforce as we dig into this issue.

We appreciate your responses to the parent survey below!

Please help us share out the surveys!  
They are available in English, Spanish, and Russian.
